Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art, specifically McNaughton et al.(USPN 4,474,572), discloses an implanting device for pellets that are transferred from a magazine into a needle from which they are implanted into the body, but lacks a drill. The prior art, specifically Schmieding, teaches a system including a drill and implant pusher for implanting a prosthesis, but lacks a transfer mechanism for the prostheses. What the prior art fails to teach is a surgical instrument that combines a drill and transfer mechanism that will transfer the prosthesis from a magazine into the trocar lumen, in which the drill is located, to then be implanted into the site the drill had prepared.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
